

## FAVORITE DOLL AWAITING BABY

Dansey Child Named Toy  
For Little Girl He Played  
With.

By J. H. DUCKWORTH.  
Hammon, N. J., Nov. 3.—"I'm sure all the mothers in America will help me to find my Billy. I know that I have the sympathy and prayers of every woman who has ever borne a child. The \$1,000 reward should spur others on to keeping an eye open for my lost baby."

In these words did Mrs. Hercules Dansey, Jr., show me today that the \$1,000 reward offered by The Washington Herald to the person who brings Billy Dansey to the editor or tells where he can be found has filled her with new hope.

Today Mrs. Dansey piled up in a corner of her sitting room all of Billy's toys.

"I must have these for Billy when he gets back home," said Mrs. Dansey. "Billy's favorite toy was this doll," she went on, picking up at the same time a "sweetie kid." "When we got here from Pittsburgh on September 3 the very first thing I unpacked was this doll. As soon as Billy caught sight of it he cried, 'Jean, Jean!' Ever after that the doll was known as Jean, named after his little playmate in Pittsburgh, Jean Anderson.

"Billy was crazy about wagons and little cars. Any kind of a wagon suited Billy. But Billy was such a happy child—he was full of play—it didn't take much to amuse him.

"All living things Billy loved. He wanted to pat every horse he saw.

"Billy was such a funny little fellow. The Monday before he so mysteriously disappeared I fixed him up to take him to town to have his hair bobbed.

"I want to go to Sunday school," said Billy, as he always did after I had dressed him all up. (I wonder whether he is getting a clean record now.)

"Dear little Billy! How well I remember that last walk into town. I too slow, mother," he said when he began to get tired. "Hard on feet," was another favorite expression when he had walked too far for his little short legs.

"I never had to call Billy into the house in the evening. When the little chap was tired he would toddle in, lay his curly little head on my lap, and sleepily whisper, 'Put me to bed, please, mother.'

"I always had to kiss him first on the mouth when he was safely tucked up in bed. Then he would turn his right cheek, always his right, and say, 'Now on this side!' He would then go off to sleep.

"Of course Billy was always the first to wake in the morning. At whatever hour this might be, even at 5 a.m., he would call out, 'It's 8 o'clock, mother!'

"You can see," concluded Mrs. Dansey, "that this little fellow Billy was of course every mother in America will help me to find him!"

"I am a member of the Red Cross in America, and I expect to raise my voice for it again in the next drive."

**BEGIN HOT WATER  
DRINKING IF YOU  
DON'T FEEL RIGHT**

Says glass of hot water with  
phosphate before breakfast  
washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous, salivary, and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of phosphate in it. This will flush the poisons and toxins from stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks feel; like you feel before your blood and muscles become loaded with body impurities, get from your pharmacist a quarter pound of phosphate, which is inexpensive and almost tasteless.

Men and women who are usually constipated, bilious, headachy or have frequent stomach disorder should begin this inside bathing before breakfast.—Adv.

## ACTUAL PHOTOS OF THE KAISER IN HOLLAND

A Great News Picture Feat! In The Washington Herald Tomorrow We Will Show You Exactly How It Was Done.

Do you know how these pictures were obtained? The Washington Herald tomorrow will explain in detail.

The Herald publishes today two photographs of the former Kaiser on his Dutch estate at Amerongen. The one at the left shows the former Kaiser, the former Kaiserin, and Gen. Dommes, adjutant, who is reading a telegram just brought by the Kaiserin announcing the forthcoming visit of the former crown prince—his first visit to his parents since the exile of German royalty. At the right the Kaiser is walking in a secluded path at the gardens of Bentinck Castle, accompanied by Dommes. Note the remarkable changes in face and figure of the former monarch—the untrimmed mustache, white vandyke beard and long whitened hair, with sack suit, felt hat and walking stick replacing the gold-and-gray uniform and sword of the once powerful warlord.

### COAL DEALERS RESENT U. S. PLAN FOR INJUNCTION

CONTINUED FROM PAGE ONE.

There be no interference by the government departments or Railroad Administration.

**Palmer's Sharp Reply.**  
Attorney General Palmer replied that he was "amazed" by the coal men's letter, saying:

"Your proposition amounts in effect to a declaration that coal dealers should be permitted to take advantage of these abnormal conditions and have their prices based entirely upon the law of supply and demand, which is only another way of saying that they should be permitted to charge the public whatever they please."

Aside from the giving out of the correspondence between Attorney General Palmer and the wholesale coal dealers, official Washington was quiet yesterday as regards the coal strike. Apparently the decision taken by the government is to wait until the number of strikers out would be received, and the situation more accurately known.

In labor circles the chief event was the issuance of a statement by the advisory board of the Brotherhood of Locomotive Engineers urging the assembling of an industrial commission to deal with the crisis. The railroad men condemned "government by injunction," but pledged support of their 85,000 members of the government in "every just and reasonable effort toward stabilizing industrial conditions."

**Governors Wire Palmer.**  
Telegrams have been received by Attorney General Palmer from the governors of the various bituminous coal producing States endorsing the stand of the government.

Gov. Shoup of Colorado, wired: "The people of Colorado heartily approve of the decision taken by the President of the United States and the Attorney General to maintain law and order throughout the United States. With this object in view the National Guard of Colorado already is mobilized for the protection of the life and liberty of the citizens of Colorado."

Gov. Roberts of Tennessee, wired: "Confidential advisers indicate a walkout in most of the coal mines in Tennessee. Kindly advise what action State authorities should take. Tennessee will stand solidly with you in all your efforts to maintain order and protection to life, liberty and property."

A telegram from C. M. Cureton, attorney general of Texas, said: "The legislative department of Texas stands squarely with the national government in its efforts to prevent the strike of the United Mine Workers of America and the disaster, want and disease which will come with the strike and stands ready to take any action direct or auxiliary that may be necessary and permitted by law to aid the national authorities."

**CHICAGO LABORITES  
WANT GENERAL STRIKE**

Chicago, Nov. 2.—A strong sentiment in favor of a general strike to aid the mine and steel strikers was developed at a meeting of the Chicago Federation of Labor today. Applause was given to every speaker who advocated such action.

John Fitzpatrick, who presided, stilled the clamor by declaring that a general strike was not possible at present. Regarding the steel strike he said:

"We have the very vitals of the steel trust in our hands, and in a very short time the bottom will fall out of the steel market. We are not worrying about the skilled workers. We have the common laborers out and the market of common labor is not large enough for the steel trust to get others."

### GEN. PERSHING SOUNDS CALL FOR RED CROSS AT BIG RALLY

Legless Hero of War Is Among First to Enroll; Commander Tells of Organization's Great Work.

Gen. John J. Pershing, who knows conditions in Europe as no other man in this country, yesterday afternoon sounded a call for a Red Cross organization here of 50,000-100 to take care of the needs in America and abroad to weather the danger that beats upon those weakened nations beyond the Atlantic till it can rally from the devastation of war.

Gen. Pershing was speaking at a Red Cross Thanksgiving roll call rally held at the Liberty Hut, Mrs. Newton D. Baker, wife of the Secretary of War, and Mrs. Laura Anderson, wife of the former Minister to Belgium, who had charge of the Red Cross work in Europe through most of American participation, also appeared on the program. Secretary Baker sat incognito in the audience.

**Must Carry On Work.**  
"Experience in the war showed that those forces which had greatest service were always those who relied on most at the front," said Gen. Pershing. "There should be a strong permanent American Red Cross and Washington is the center from which the movement should start. We have got to be prepared for sometime to carry on the work in Europe. We cannot let go now. War and the wars which have preceded this till its people are weakened. Its women and children are evicted and America has got to carry on the work till order is restored. We do not know yet that the war is over."

The meeting was presided over by H. B. F. Macfarland.

**PERSHING HONORS  
LEGLESS PRIVATE**

The throng that filled Liberty Hut yesterday afternoon for the opening of the third Red Cross roll call witnessed a striking tribute to one of the men who gave much for the country in the World War. Among the wounded men from Walter Reed Hospital who attended the rally was Private Ralph Grimm, of the 35th Infantry, 89th Division, whose home is in Cincinnati and who lost both legs in the third Argonne drive. He was carried in by two comrades and when Gen. Pershing, seated on the stage, spied the legless veteran he instantly left his seat, crossed to where the private was being made comfortable and heartily clasped the hand of the tangle-headed doughboy.

It was announced at the rally that every one of the soldier patients at Walter Reed is a Red Cross member for 1920, their fees being covered by a check for \$2,000 donated for the purpose by Mrs. Res. of Pittsburgh, who has been a Red Cross worker at the hospital.

fields can benefit be paid. Government officials said they expected after a few days the miners would become dissatisfied and make demands on their leaders for a settlement.

Ethel Seales, publicity man of the international organization, said today no attempt would be made in the face of the injunction to carry on a propaganda campaign. He even declined to give out a statement concerning progress of the strike. He said it had been planned to take pages of advertising in 100 of the leading newspapers of the country to spread strike propaganda, but the plan was abandoned when the injunction was issued. He said the miners wanted to lay before the public their reasons for demanding a five-day week and a six-hour day and to explain why their demand for a 50 per cent increase was not unreasonable.

**International Headquarters** were engaged today in preparing for the hearing on Judge Anderson's temporary injunction next Saturday.

**Miners Discouraged.**  
Around the Federal Building there was an air of confidence. At miners' headquarters there was thinly veiled discouragement.

At the Federal Building certain officials predicted one of two things would happen: The union heads would come to some understanding on the question of arbitration and call off the strike, or they would permit it to continue without their guiding hand. If the latter course were pursued, a gradual break in the solidarity of the miners' ranks might be expected.
